

NAVIGATING TURNAROUND SEASON

4 Essential Honeywell Service Offerings to Propel you to Success

Honeywell is committed to offering the best support for our customers during turnaround season. That's why Service Made Simple simplifies the process of obtaining the necessary support and services during turnaround season.

A full-page photograph of a male worker in a blue high-visibility safety suit with reflective yellow-green stripes. He is wearing a white hard hat and safety glasses. He is holding a yellow and black rugged handheld device in his right hand, which is connected to a cable. In his left hand, he holds a black tool, possibly a probe or sensor, which is inserted into a hole in a large, rusted metal flange on a piece of industrial equipment. The background is a light-colored, textured wall. The Honeywell logo is in the bottom right corner.

Honeywell

SUPPORT SERVICES DESIGNED TO MEET YOUR REQUIREMENTS

Our Service program is designed to enhance the value of the Honeywell solution by offering service options that boost uptime, reduce unpredictable costs, and provide additional resources to ensure your facility turnaround is completed efficiently, on schedule and within budget!

Service Solutions for for Turnaround Activities

01 | Preventive Maintenance Packages

Send your gas detector to Honeywell for a **device health check** to ensure your life saving device is in good working condition and ready for turnaround season. With this service, our service techs will perform an overall inspection of the device along with the recommended preventative maintenance specified for your device.

02 | Rentals

Honeywell offers a **smart, simple, and economical solution** for users who need additional instruments for turnaround projects. Our rental program provides a wide variety of rental kits, monitors, and accessories to help protect your workers and assets from gas risks during turnaround season.

03 | On Demand Repair & Calibration Services

To help facilities prepare for turnaround, Honeywell offers Calibration and On Demand Repair Services on a per incident basis. The On-Demand Repair Service conveniently fixes out-of-warranty devices, while the Calibration Service ensures gas detection equipment is calibrated by our expert technicians, promoting facility and crew safety. This approach provides **cost-effective and comprehensive support** for essential maintenance needs, minimizing downtime throughout the turnaround process.

04 | Advanced Replacement

Enhance site safety and reduce downtime during turnaround using Honeywell's expedited replacement service for BW Clip, Clip4 and BW Icon. In the event of product failure, this cost-effective service swiftly replaces your malfunctioning device, prioritizing worker safety and ensuring instruments are ready and in optimal condition when needed most.
