

SUPPORTING WOMEN IN CONSTRUCTION

Celebrate women in construction with Honeywell Safety Solutions.

Women's growth in construction is **5X** the growth in the field overall.²

The construction industry has one of the smallest pay gaps between women and men. Women earn on average **95.5%** of what men make.²

As of 2020, approximately **1,173,000** women were employed in various occupation sectors of the construction industry².

44%

of the top 100 contracting companies have women in executive roles.¹

13%

of construction firms are owned by women.¹

10.9%

of construction trade workers are women.²
