

PRIMAIR® 700 PAPR FILTER & CARTRIDGE GUIDE

When it comes to Powered Air-Purifying Respirators (PAPR), the Honeywell North® Primair® 700 (PA700) Series is engineered to be ergonomic, efficient, and effortless.

Our full range of **PAPR filters and cartridges** takes the PA700 Series to the next level, and is designed to help protect workers in a variety of hazardous environments. These filters and cartridges help protect against dust, particulates, and certain gases and vapors. A pre-filter is optional for the PA7HE only and can help capture solid particulates and prolong the life of the filter. Additionally, a filter cover can be used on top of any filter or cartridge for added protection and is easy to wipe clean.

KEY FEATURES & BENEFITS

• VERSATILE COMPATIBILITY

Our full line of PAPR filters and cartridges are tested and NIOSH-approved for compatibility and usage with all Honeywell PAPR configurations. Cartridges can be used with both loose-fitting headpieces and tight-fitting respirators, depending on worker preference and needs. Tight-fitting respirators require fit testing and a clean shave, while loose-fitting options do not.

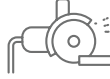

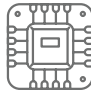

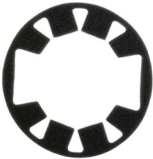

• MULTI-CONTAMINANT PROTECTION

Honeywell filters and cartridges can be utilized for a wide range of airborne contaminants including particulates, gases and vapors, depending on the exact hazards in the work environment. Choose from our complete range from HEPA Filter to Multi-Gas Defender to best suit your workers' needs.

PA700 FILTERS & CARTRIDGES												
SKU	CARTRIDGES/ BOX	BOX/CASE	CARTRIDGES/ CASE	SINGLE WEIGHT	WEIGHT/DIMENSIONS OF BOX				WEIGHT/DIMENSIONS OF CASE

CHOOSE THE RIGHT PA700 SERIES FILTER OR CARTRIDGE FOR YOUR APPLICATION

Different work environments present different hazards, so it's critical you select the right filter or cartridge for your workers. This guide will help ensure that you find exactly what you're looking for to help keep your workers safe from respiratory hazards.

PRODUCT	SKU	NAME/DESCRIPTION	SAMPLE APPLICATIONS			
	PA7HE	HEPA FILTER P100 High Efficiency Particulate Air-Purifying (HEPA) Filter	Welding 	Sanding, Cutting, Drilling 	Remediation 	Construction Finishing, Grinding 
	PA7OVHE	HEPA/ORGANIC VAPOR CARTRIDGE Organic Vapor with High Efficiency Particulate Air-Purifying (HEPA) Filter	Adhesives & Removal 	Painting, Removal & Cleaning 	Construction Road Work 	Soldering 
	PA7OVAGHE	HEPA/ORGANIC VAPOR/ACID GAS CARTRIDGE Organic Vapor, Acid Gas [Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride, Chlorine Dioxide, Hydrogen Sulfide], with High Efficiency Particulate Air-Purifying (HEPA) Filter	Oil & Gas 	Chemical 	Utilities, Semiconductor 	Paper & Pulp, Galvanizing 
	PA7DEHE	MULTI-GAS DEFENDER CARTRIDGE Multipurpose Cartridge with HEPA filter: [Organic Vapor, Acid Gas (Chlorine, Hydrogen Chloride, Sulfur Dioxide, Hydrogen Fluoride, Chlorine Dioxide, Hydrogen Sulfide)], Ammonia, Methylamine, Formaldehyde, with High Efficiency Particulate Air-Purifying (HEPA) Filter	Fertilizer Manufacturing 	Agriculture 	Pharmaceuticals 	Food & Beverage 
	PA7PR	Pre-Filter Pre-filter for PA700 PA7HE HEPA Filter	The pre-filter is used with the PA7HE HEPA filter and helps capture solid particulates, extending the efficiency of the filter			
	PA71A1	Filter Cover (Small) Cartridge Cover, Small For PA7HE	The filter cover is optional for added protection and is easy to wipe clean after use			
	PA71A2	Filter Cover (Medium) Cartridge Cover, Medium, For PA7OVHE and PA7OVAGHE and PA7DEHE
