

## The In-House Mason Basic Maintenance Course

## Conveyor Operations, Maintenance & Troubleshooting Course

This training course is designed to provide an understanding of the operation, preventive maintenance, troubleshooting and repair of Honeywell Intelligrated material handling equipment, including component identification and replacement. This course does not include electrical or controls maintenance.

### Course Topics

This 3-day class includes operation, maintenance and troubleshooting for the following conveyors:

- Gravity conveyor
- Belt conveyor
- Brake/meter belt conveyor
- Servo brake/meter belt conveyor
- V-belt conveyor
- IntelliQ® zero pressure accumulation conveyor
- Accuglide™ zero pressure accumulation conveyor
- IntelliSort® WD pop-up wheel divert
- Motor Driven Roller conveyor (MDR)
- IntelliSort® sliding shoe sorter

### Course Outcomes

The training course consists of approximately 50% classroom and 50% hands-on demonstration at the conveyor. This combination of classroom and hands-on training will provide each participant with the ability to:

- Demonstrate a basic knowledge of safe operation and maintenance of conveyor systems
- Identify the basic function and operation of each conveyor
- Identify the primary components of each conveyor
- Demonstrate proper maintenance procedures for given components
- Demonstrate a basic knowledge of preventive maintenance tasks and intervals
- Demonstrate a basic knowledge of given troubleshooting guidelines
- Understand all services available through Honeywell Intelligrated Lifecycle Support Services including 24X7 technical support, Dashboard™, Knowledgebase™, OnTimeParts™ and warranty procedures.
