

# HONEYWELL AUTOMOTIVE MANUFACTURING

In today's complex manufacturing landscape, a disconnected workforce can be a risk to competitiveness. We understand and have solutions to fit your needs.

## SHIFT YOUR OPERATIONS AND PRODUCTIVITY INTO HIGH GEAR

Precision, accuracy, and quality are imperative in automotive manufacturing. Today, automakers, auto-retailers, OEMs, and suppliers are turning to innovative solutions in their facilities to stay competitive and retain workers from shop floor to top floor.

To stay resilient in the face of rapid change, 60% of manufacturers plan to invest in data analytics over the next year to improve visibility<sup>1</sup>, 53% of US manufacturers are planning to increase workflow automation on the factory floor<sup>2</sup> and 64% plan to invest in upskilling and training of their existing workforce<sup>3</sup>.

By making strategic investments in automation and software solutions, you give your workers the technology needed to help ensure production efficiency, proper inventory management, quality products, and timely shipping rates, while closing the visibility gap.

Honeywell offers an extensive product portfolio of handheld and fixed mount barcode scanners, vehicle-mounted, handheld and tablet mobile computers, desktop and industrial printers, and voice automation.

## PRODUCTIVITY SOLUTIONS

### **Xenon Ultra Handheld Scanner**

The Xenon Ultra allows workers to stay productive and agile. With optional dual-camera extended range (XR) models, workers can use the scanner for both up-close and extended scanning. Available in corded configuration.

### **Granit XP 199iXLR Industrial Scanner**

Granit XP XLR model is suited to normal, near-field scanning operations on 1D and 2D barcodes, plus maximum range scanning of UPC up to 80 feet. Ultra-rugged, indoor and outdoor aiming visibility, and Bluetooth connectivity.

### **HF800-811 Fixed Mount Scanner**

Powerful 2D industrial scanner with DPM capabilities in a compact form factor. Build a complete manufacturing management solution for end users for maximum uptime and productivity.

### **8675i Wearable Scanner**

The 8675i offers always at-hand wearable scanning to improve workflow productivity. Premium scanning performance including FlexRange option enables wearable efficiency. Small, lightweight and ergonomic, the 8675i will help your workers perform.

### **CT45/CT45XP Mobile Computer**

CT45 mobile computers, built on the Mobility Edge platform, are rugged, all-purpose productivity tools built for ultra-reliable performance, data connectivity and communications for front-line mobile workers in retail, logistics and fieldwork.

### **CK65 Mobile Computer**

The CK65 mobile computer helps boost productivity by accelerating and error-proofing work with up to 28-hour battery life. Large touchscreen display, and durable construction allow enhanced performance in harsh environments.

### **CT47 Mobile Computer**

CT47 mobile computer with 5G connectivity is a durable and purpose built productivity device providing reliable performance. Built on the Mobility Edge platform for enhanced security and one-hand operation for easy use.

## PRODUCTIVITY SOLUTIONS

### RT10 Mobile Tablet

A rugged tablet designed for rapid user adoption and optimized device management. Powerful barcode scanning capabilities, rugged construction, and connected worker capabilities.

### VM1A Vehicle-Mounted Computer

Compact, ergonomic and powerful, the Thor VM1A is designed to help maximize productivity, minimize visual obstructions and reduce downtime. The Smart Dock feature helps reduce maintenance costs and allows users to quickly shift computers. Additional features include indoor/Outdoor use, 8-inch display, and field-replaceable front panel, for continuous use.

### PX940 Industrial Printer

The PX940 high-performance industrial printer with integrated label verification technology provides reduced error printing. Rugged, all-metal housing, predictive maintenance, and Bluetooth capabilities.

### PM45/PM65 Industrial Printer

This series of printers is designed for high quality label printing and offers high-precision and high-volume printing. Reliable performance helps enterprises enhance automation and intelligence in manufacturing and supply chain management for high operating efficiency.

### PC45 Desktop Printer

Powerful performance, reliable connectivity, and easy integration to help tackle rapidly changing everyday work environments. Enterprise-level ruggedness and a large touch screen display, the PC45 series desktop printers bring reliability in a compact design.

### Voice Automated Solutions

Optimize your operations with our flexible and robust voice technology, while maximizing existing IT investments. Honeywell Voice headsets offer significant reliability and ease-of-use features to get the most out of your operations. Honeywell wireless headsets give workers greater mobility and raise the standard in mobile workforce ergonomics.

### Operational Intelligence

Honeywell Operational Intelligence is a software offering that goes beyond simply providing data. It takes it one step further by analyzing that data and converting it to actionable insights - even those you didn't know were there. In addition to providing data-driven insights, Honeywell Operational Intelligence enables automation that helps manage workflows and disruptions in real-time.
