

## **SERVICE BENEFITS FOR SCANNERS**

Whether it's corded, cordless, or hands-free, scanners are instrumental to our daily lives and your business. Don't let scanner downtime hurt your bottom line. Select from three levels of service and a variety of upgrade options to customize a support plan that best fits the needs of your business and budget.

Basic and Gold maintenance service plans cover device technical support with the ability to customize with add-on options. The Platinum Solution plan offers our most comprehensive coverage and includes not only device and device accessory replacement, but also spare pool management with next business day turnaround time.

Honeywell Edge Services also offers spare pool management as a standard option with the Platinum Solution plan and as an upgrade option for Basic and Gold plan levels. Honeywell will obtain and manage an agreed percentage of spares that will ship within 24-48 hours of replacement request so you never have a lag in productivity.

### Full Comprehensive Upgrade

Replaces damaged scanners beyond the scope of repair.

#### Spare Pool Management

Honeywell manages a customerowned spare pool. Replacements ship within 48 hours.
