

IMMEDIATE ACTION REQUIRED

STOP USE NOTICE

Product: Miller® Turbolite™ + EDGE Cable Personal Fall Limiters (SRL) class 2 (ANSI) & CSA

As part of our rigorous internal testing procedures, PIP | HSP Miller Fall Protection has identified and isolated a manufacturing issue related to a single Turbolite™ + EDGE Cable Personal Fall Limiter (SRL) class 2 (ANSI) produced on September 3, 2024 (Inspection Number: M242470361). Additional internal testing of our inventory has not revealed additional issues to date, and there have been no reports of accidents or injuries associated with this concern. Appropriate corrective actions have been implemented to help avoid such nonconformance in the future. As a visual aid we are adding a green dot to recertified units within the manufacturing date range stated in this notice (1- on the outside label of the box, 2- on the label of the actual housing of the unit) which are safe for use.
