BRICK AND MORTAR –
BUT NO WALLS

Breaking down barriers to help you deliver a consistently great retail experience
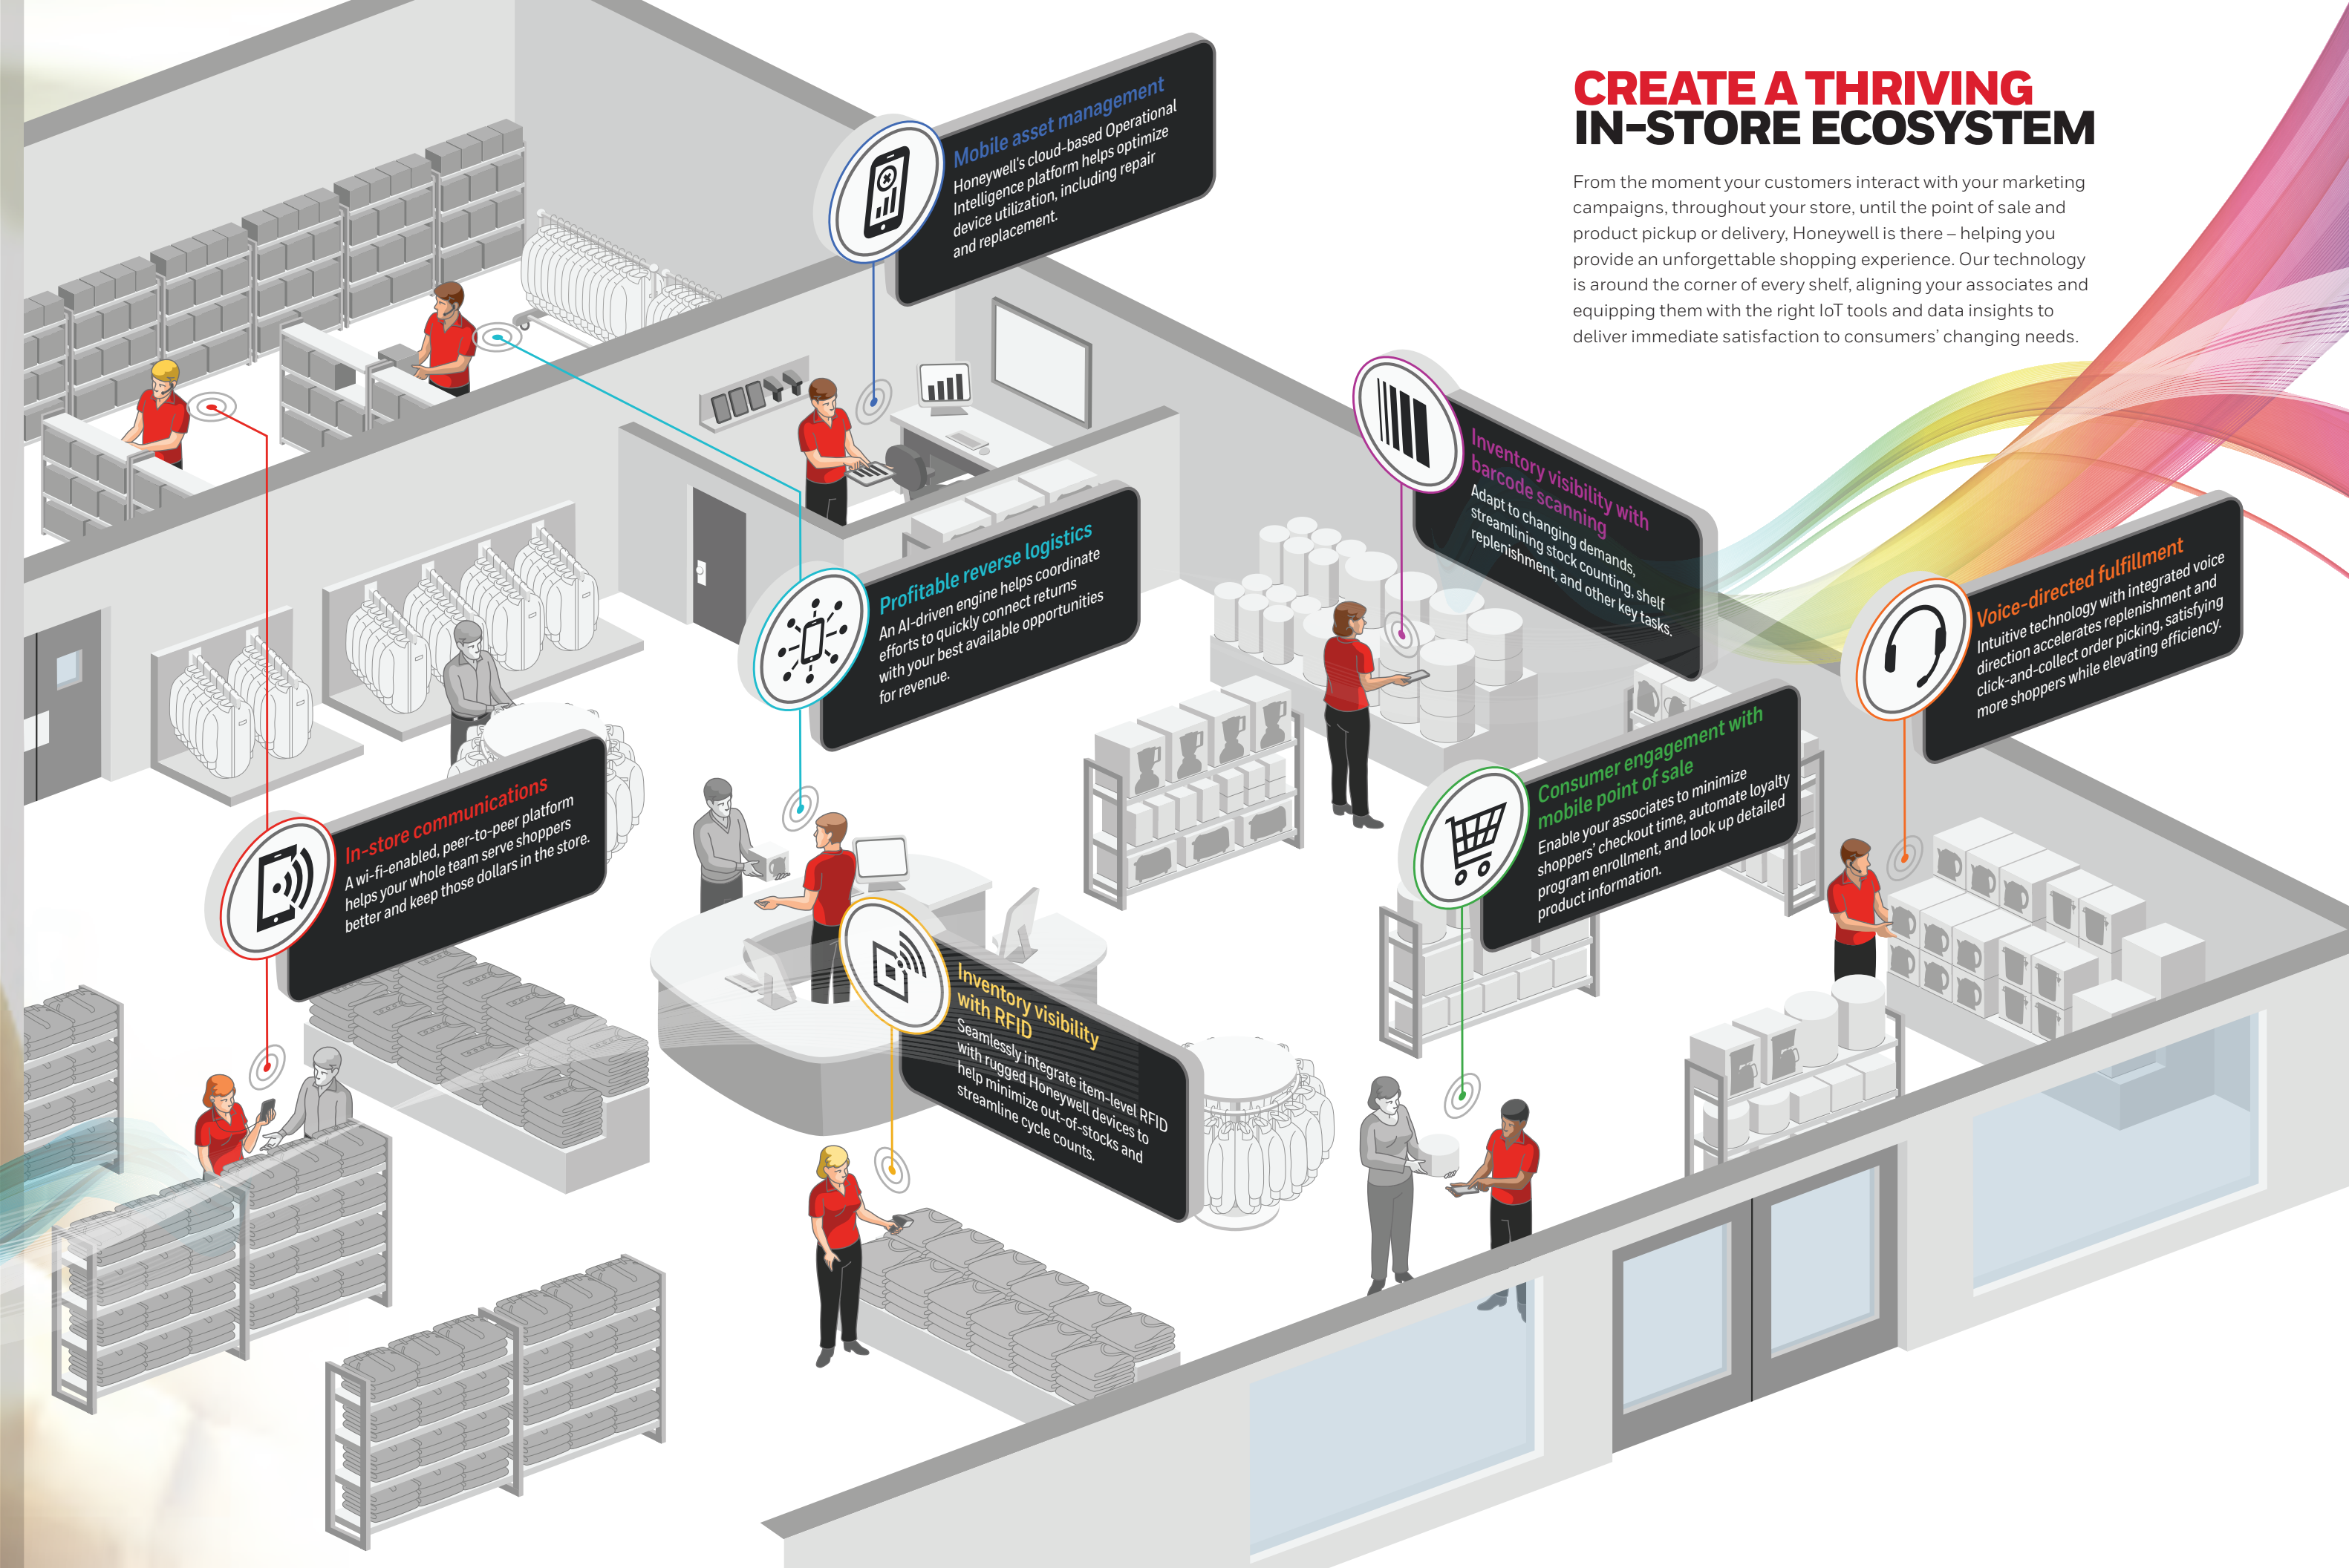

In-Store Retail

Honeywell

CONNECT PEOPLE, ASSETS, AND MERCHANDISE LIKE NEVER BEFORE

From the storefront to the backroom, Honeywell's In-Store Retail solutions open up powerful new possibilities for your stores. Explore how we can help you overcome every barrier to create a consistently great in-store experience for today's consumers – making your operation more profitable, and keeping them coming back for more.

CREATE A THRIVING IN-STORE ECOSYSTEM

From the moment your customers interact with your marketing campaigns, throughout your store, until the point of sale and product pickup or delivery, Honeywell is there – helping you provide an unforgettable shopping experience. Our technology is around the corner of every shelf, aligning your associates and equipping them with the right IoT tools and data insights to deliver immediate satisfaction to consumers' changing needs.

Mobile asset management
Honeywell's cloud-based Operational Intelligence platform helps optimize device utilization, including repair and replacement.

Inventory visibility with barcode scanning
Adapt to changing demands, streamlining stock counting, shelf replenishment, and other key tasks.

Profitable reverse logistics
An AI-driven engine helps coordinate efforts to quickly connect returns with your best available opportunities for revenue.

Voice-directed fulfillment
Intuitive technology with integrated voice direction accelerates replenishment and click-and-collect order picking, satisfying more shoppers while elevating efficiency.

In-store communications
A wi-fi-enabled, peer-to-peer platform helps your whole team serve shoppers better and keep those dollars in the store.

Consumer engagement with mobile point of sale
Enable your associates to minimize shoppers' checkout time, automate loyalty program enrollment, and look up detailed product information.

Inventory visibility with RFID
Seamlessly integrate item-level RFID with rugged Honeywell devices to help minimize out-of-stocks and streamline cycle counts.

HOW IoT TECHNOLOGIES AND DATA INSIGHTS HELP UNIFY THE STORE

Honeywell In-Store Retail is about collaborating within your store and across your enterprise, bringing together associates, shoppers, assets, and merchandise with a complete solution that's adaptable to evolving needs.

CLOUD-BASED DATA PROCESSING

Powerful intelligence that requires no new IT infrastructure.

ENTERPRISE SYSTEMS

Integrated with existing software for rapid, far-reaching impact.

SOFTWARE
Elevate customer service by driving workflows such as shelf replenishment and solving emerging challenges with solutions from Honeywell and our partners.

EDGE DEVICES
Connect associates with accurate, timely inventory information and enterprise systems to serve shoppers better and drive profitable operations.

LIFECYCLE SERVICES
Get help deploying, optimizing, and managing your mobile devices, so you can minimize TCO and maximize ROI.

GET MORE LIFE FROM RETAIL-OPTIMIZED MOBILE TECH

EXPERIENCE THE POWER OF HONEYWELL MOBILITY EDGE™ – a unified mobile computing platform designed for faster deployments, optimized business performance, longer lifecycle, and stronger security. It's the industry's only platform built for upgrades all the way through Android™ R.

TACKLE EMERGING CHALLENGES
Coordinate customer service, expedite the returns process, and drive other key workflows with retail-focused apps.

OPTIMIZE MOBILE ASSETS
Gain greater control over all your mobile devices, across all your locations, with Honeywell's Operational Intelligence asset management solution.

MAKE INNOVATION WORK WITHIN YOUR BUDGET
Take advantage of affordable monthly payment options with Honeywell as a Service (HaaS).

SECURE YOUR APPS, DEVICES, SYSTEMS, AND DATA
Honeywell solutions are secure by design, informed by intelligence, and defended with vigilance by over 300 dedicated security professionals.

EXPLORE WHAT YOUR STORES CAN ACHIEVE

25% REDUCTION IN OUT-OF-STOCKS
from system-driven proactive shelf re-stocking alerts for store associates.

20% INCREASE IN LABOR PRODUCTIVITY
due to combined retail operations processes that reduce task completion times.

99% ON-SHELF COMPLIANCE
to enhance merchandising plan execution and deliver better inventory visibility while optimizing best-sellers.

Great things can happen when you break down barriers and connect people, assets, and merchandise in new ways. Let's talk about your retail business and see what we can help you achieve.

Call 800-582-4263 or visit hwll.co/retail.

Together, we can open up new possibilities for a consistent, profitable in-store experience.
